

# Tangerine #F28500

*Atomic Tangerine is the color of the orange color spectrum. It belongs to the orange red colour spectrum.*

Tangerine is youthful, playful and energetic, packing a punch of color, and complementing colors in the orange color palette, or that you would probably associate with a sunset, such as yellows, blues, and purples.

Tangerine is a bold, saturated orange shade that marries the fierceness of red and the cheerfulness of yellow. As a citrus color, it increases oxygen supply to the brain, producing an invigorating effect and stimulating mental activity.

# Indigo #452778

*Indigo is a deep midnight blue. It is a combination of deep blue and violet and holds the attributes of both these colors.*

The color indigo is the color of intuition and perception and is helpful in opening the third eye. It promotes deep concentration during times of introspection and meditation, helping you achieve deeper levels of consciousness. It is a color which relates to the «New Age» - the ability to use the Higher Mind to see beyond the normal senses with great powers of perception. It relies on intuition rather than gut feeling.

# Green

*Green is the color of Mother Earth. It takes up more space in the spectrum visible to the human eye and it is the dominant color in the natural.*

The color green strikes a balance between head and heart. Those who lead with their emotions are subtly reminded to think logically when they see the color green. On the other hand, unfeeling individuals may become more sentimental when they cross paths with this viridescent shade. The color green encourages us to have a healthy relationship with our feelings.
